HTTP-requests
Unirest
JSON

Misc

NPM
CLI/UNIX
Git / Github
Pivotal Tracker
Trello

PROJECTS

The Sorting Hat:

Languages: PostgreSQL, Express, Angular, Node.js

Description: A survey app, built intelligently. Users can view previous surveys and a statistical breakdown of their results. Features social sign-in with three separate deployments for maximum security; Angular, express, and a standalone API.

Slack Clone:

Languages: JavaScript, jQuery, AngularJS, Express, Socket.io

Description: A dynamic slack clone that allows users to send and receive messages in real time. Users can send team messages, direct messages, and create new channels. All users are securely authenticated and can return to previous conversations everytime they log in.

Mantra:

Languages: Javascript, jQuery, Express, Node.js, passport.js

Description: A business to business yoga sequencing app. Marketed to instructors so that they can send/review their flows. Features secure social sign in via Facebook. Users can upload custom pictures, or use their default Facebook
